NAV

The sub-funds are priced daily - on each full bank business day (D) in Luxembourg.

NAV publication

Fund prices are published on (D+1) around 9:00 a.m. (CET). Sparinvest fund prices are listed in most well known Financial Media.

Prices are also available on the Sparinvest website www.sparinvest.eu.

Shareholders register

Shares are held under registered form as a record of entry in the register maintained by European Fund Administration S.A. Further to a nominee agreement with a distributor, the said sub-fund shares can be held separately in the register of a duly appointed nominee whose bulk holdings will be registered in the register maintained by European Fund Administration S.A. No custody fee will be charged by European Fund Administration S.A. to shareholders, in the case of the Luxembourg-based Sparinvest sub-funds.

Conversion between sub-fund/share classes

Shares of any class may be converted into shares of any other class of the same, or another, sub-fund, upon written instructions, addressed to the registered office of the Fund, the Registrar and Transfer Agent, the Distributor, the Nominee or any intermediary situated in a country where the Fund is marketed. No conversion commission will be charged.

Conversion requests received by European Fund Administration S.A. on a Valuation Date until 5:00 p.m. (CET) will be dealt with on the basis of the relevant Net Asset Value established as of that Valuation Date. Conversion requests received by European Fund Administration S.A. after 5:00 p.m. (CET) on a Valuation Date or on any day, which is not a Valuation Date,

will be dealt with on the basis of the Net Asset Value of the next Valuation Date. Conversion of shares will only be made on the basis of the applicable subscription and redemption prices of the concerned classes calculated as of the first applicable common Valuation Date.

The rate at which shares in a given class are converted to shares of another class is determined in accordance with the following formula:

$$A = \frac{(B * C)}{E} * EX$$

A = The number of shares in the new class to be issued

B = The number of shares in the original class

C = The Net Asset Value per share of the original class

E = The Net Asset Value per share of the new class

EX = the exchange rate on the conversion day in question between the currency of the class to be converted and the currency of the class to be issued. In the case no exchange rate is needed the formula will be multiplied by 1.

An investor who converts shares through paying agents may be required to pay fees connected to the transactions processed by said paying agents in the jurisdictions in which shares are offered. Shareholders may be requested to bear the difference in subscription commission between the sub-fund they leave and the sub-fund of which they become shareholders, should the subscription commission of the sub-fund into which the shareholders are converting their shares be higher than the commission of the sub-fund they leave.

Taxation in Luxembourg

Institutional investors are, at present, not subject to any Luxembourg capital gains, income, withholding, gift, estate, inheritance or other tax with respect to shares owned by them. The fund is however subject to an annual tax of 0.05% on the aggregate Net Asset Value of the "retail" share classes and 0.01% on the aggregate Net Asset Value of the "institutional" share classes.

Dividend payment

Dividends will be paid (once or twice a year) for the distributing share classes. The dividend will be paid in the currency of the respective share classes.

Standard reporting

Monthly factsheets outlining performance figures, sector-, country- and geographic breakdown can be

provided to Sparinvest's clients on request. Such mailing is done electronically. These monthly factsheets are also available on Sparinvest website www.sparinvest.eu.
